ETT Advanced Level

Section A: Transeva Treatment

- 450 hrs of Transeva treatment on the Equine must be logged with the date, horse's name and owner's information. One horse equates to one hour.
- Owners of 6 different horses will be asked to evaluate you as a practitioner and the results of ETT after a minimum of three treatments. *(ETT Level 1 Transeva assessment form is attached)*

Section B: Anatomy - This section consists of three test and one exam.

- *Test 1 will focus on;*
The nervous and lymphatic system.
Labelling the skeleton.
- *Test 2 will focus on;*
Tendons, ligaments and hoof
Labelling the superficial and deep muscles
- *Test 3 will focus on;*
Muscle origins, insertions and functions

The Anatomy Exam will be a combination of the 3 tests, the tests will be done on the honesty system and the exam will be done through a recognized examiner in your area.

Section C: Pelvis Structure research paper

Details to follow

Section D: Saddle Fitting

8hrs spent shadowing a professional saddle fitter. *(ETT information form is attached)*

Section E: Equine Lameness Assessment

40hrs shadowing a Veterinarian specialising in equine lameness

(ETT assessment form is attached for VET to complete)

(ETT assessment form is attached for THERAPIST to complete)

Section F: Equine Dissection with an Equine Veterinarian

In this dissection, focus should be placed on the pelvic structure and its attachment to the vertebrae, the muscles of the hind quarter especially the Psoas Group. *(ETT assessment form is attached)* This can be completed through BSET Academy.
